### General Guidelines -

- Once a time slot is filled with the trustee's preferred cases per hour, cases should be assigned to the next available time slot. Once all time slots have been filled for a particular meeting date, additional cases should first be added to any overflow time slot and then to existing slots by adding one case to each time slot. Once all time slots have received an additional case then a second case should be added to each time slot.
- Overflow time slots are as follows [cases are not initially assigned to these slots unless the other slots are full, then these slots are used prior to adding additional cases to full time slots]

### **Boise**

Chapter 7	Thursday	11:00 then 10:00 and so on
	Friday	1:00 then 2:00 and so on
Chapter 13	Monday	Start at 9:00 or 10:00 depending on whether there is a video calendar then to the next hour later in the day
